

# CHIKPEA

"CIGRONET DE L'ANOIA "

LOCALNUTLEG

*Mediterranean region*

*Spain*

## GEOGRAPHIC AREA

Grows in the Alta Anoia area (a natural region of Catalonia bordered by the plateau of the same name) which brings together 12 municipalities north of Anoia.

## STEPS OF PRODUCTION

**Plantation:** February- March

**Flowering:** June

**Harvest:** August

CIGRONET DE L'ANOIA has been handed down from father to son and over time has adapted to the arid soil of the region and its harsh climate in winter but very hot in summer.

## CHARACTERISTIC

- Small chickpea;
- Very smooth skin;
- Increases up to three times its volume during cooking;
- Delicate taste and not floury texture.

## ASSOCIATION

Farmers of the area have gathered in the "Associació de Productors i Elaboradors de Cigronet de l'Alta Anoia" (<http://www.cigronet.cat>) to protect this traditional product, to guarantee the quality of this legume.
